Apostle (Dr) Lonnie Sessoms, Jr.

DUTY CALL: RENDEZVOUS WITH DESTINY

A Sequel to "For God and Country: Vietnam Through Christian Eyes"

There is a great void and longing in humanity today regarding their origin. The scientific community has settled with the notion that we are from a species of primates called apes, monkeys, etc. The absurd idea that these well paid, highly educated specialists of today has thrown education off track with many casualties. The theological fact that the origin of man started in the mind of God is substantiated by the Word of God in Jeremiah 1:5, "Before I formed you in the womb I knew you, before you were born I set you apart; I appointed you as a prophet to the nations."

The Duty Call chapters are very unique methods of understanding God's design through his mind, and our predetermined, foreordained destiny from the Creator's perspective. This book covers approximately the first 28 years of the author's life. The very thought that God has placed potential and purpose in all of us is encouraging within itself. For most of us, this jewel is hidden under layers of lifetime experiences, both positive and negative. Saying yes to the Lord is also saying yes to trials and tribulations; for these are included in the ingredients for a successful Christian life.

This is an opportune time for you to retrace your steps, retrace your steps, re-evaluate your life, and discover that there is more to you than meets the eye. You are not accidental; you are purposeful with specific destiny as placed in you by your Creator, God.
