

Wish Granting Volunteers are needed for the Make-A-Wish Foundation of Eastern North Carolina! Wish Granters visit the family and help determine the wish of the child while explaining wish procedures and using their creative side to make the wish truly magical. Wish Granters see first-hand the impact a wish can make on a child with a life-threatening medical condition! For more information, contact Lisa at 919-821-7111 or lbrinkerhoff@eastncwish.org

What is the flu?

The flu (influenza) is an infection of the nose, throat, and lungs caused by influenza viruses. Flu viruses cause illness, hospital stays and deaths in the United States each year. There are many different flu viruses and sometimes a new flu virus emerges to make people sick.

What is novel H1N1 flu?

Novel H1N1 flu is a new and very different influenza virus that is spreading worldwide among people. This new virus was called "swine flu" at first because it has pieces of flu viruses found in pigs in the past. However, novel H1N1 virus has not been detected in U.S. pigs.

Influenza is unpredictable, but scientists believe that the new H1N1 virus will cause illness, hospital stays and deaths in the United States over the coming months. This flu season, the new virus may cause a lot more people to get sick than during a regular flu season. It also may cause more hospital stays and deaths than seasonal flu.

BIG JACKPOT DRAWINGS 4 TIMES A WEEK.

CHOOSE THE MEGAPLIER™ FOR A CHANCE TO MULTIPLY YOUR NON-JACKPOT WINNINGS 2-4 TIMES
